## Objective:

Dedicated and versatile front-end developer with hands-on experience in HTML5, CSS3 (including SASS), and JavaScript (ES6+), bolstered by proficiency in frameworks such as jQuery and React. With a solid foundation in version control using Git and GitHub, coupled with expertise in responsive design principles, I am equipped to contribute effectively to dynamic web development projects. My background extends to full-stack development, PHP, and MySQL, complemented by a keen eye for detail and a commitment to delivering high-quality solutions. Seeking opportunities to leverage my technical skills and passion for innovation to drive impactful results in a collaborative team environment.

## Experience:

- ❖ Loris Studio (internship)  
Front-End developer, September 2020 – September 2021
- ❖ C+C Academy  
English Teacher, January 2021 – June 2021
- ❖ Petco. (Internship)  
Full-Stack Developer, July 2023 – August 2023
- ❖ Freelancer  
Translator, Since 2023
